

ASSISTED LIVING

It goes without saying that we all want to live as independently as possible, for as long as possible. Yet for many of us, there may come a time when some level of assistance and support is needed. If you or someone you love has reached that point in life, Richfield's assisted living programs offer solutions that will provide peace of mind to you and your loved ones. Our programs are designed to enhance the quality of life through life enrichment programs and individualized care plans that are reflective of the personal needs and preferences of each resident.

Richfield offers two distinctive assisted living residences on our campus - **The Oaks** and **Joseph Thomas Center**. Both are designed for adults over 55 who are unable to live independently and need support with their daily needs. Our residences offer 24-hour supervision, activity and wellness programs, health monitoring, medication management, meals and assistance with personal care.

At Richfield, our purpose is to help individuals rediscover quality of life, regardless of where they are in their journey. With comprehensive services tailored to meet individual needs, we strive to provide environments that are nurturing, comfortable, and secure, where each resident's individual qualities are recognized and respected.

RICHFIELD

MEMORY CARE

We believe caring for individuals with memory impairment is a privilege and recognize that each individual requires a specialized approach to care, which is unique to them.

Two households in the Joseph C. Thomas Center are dedicated to memory care. We focus on supporting each person's unique strengths and abilities—not their limitations. Through resident-directed approaches and life enrichment programming, our goal is to increase the quality of life for our residents and improve their level of satisfaction and well-being.
