

The Richfield Living Town Center is the heart of our community

In 2019, Richfield Living began the journey to cultural change with a development plan called "Vision 2020: Project Home"—the most expansive development plan in the organization's 90 year history. The goal of Project Home was for the physical set up of the community's households to cultivate warmth and a sense of belonging, with the key premise being that residents are the center of the action at Richfield.

Themes of socialization, wellness, and celebration in a central gathering place topped the priority list of the Town Center committees. In the throes of COVID 19 limitations, pandemic isolation fueled the desire for a return to connection. With the spirit of these ideals in mind, leadership and residents worked together to design the campus centerpiece.

Observant of Richfield Living's commitment to support the physical, emotional, and spiritual wellbeing of the residents, the desire to create dining options as destinations came to the forefront of discussion. Opened in January of 2021, residents who contributed to the design enter the **Town Center** eager to see and experience the stunning results.

Reality surpasses the imagination!

Surrounded by mountain and water views, the warm décor beckons guests inside. A stone fireplace with a mantle crafted from a beloved Richfield tree accent the floor-to-ceiling windows in the two story atrium. The residents will be proud to share and show off the Town Center as their own; as senior leadership at Richfield Living are quick to remind, this gorgeous space belongs to the residents.

Find out more about what amenities are offered in the Town Center on the back of this flyer.

Smoke free campus

The Wellness Studio

The health and wellness area is anchored by The Wellness Studio. Exercise equipment, options for personal training and fitness classes highlight the programming. The bright and welcoming studio adds to the fitness opportunities on the 52 acres of green space on the Richfield Living campus.

The one-mile Richfield Trail walking path passes the Glenvar Public Library adjacent to campus. Additional sidewalks and exercise stations are also a part of the Landscaping Council's plan to extend the Town Center's physical wellness amenities deep into other areas of campus.

The BellaVue Salon and Spa

At BellaVue Salon & Spa, special treatment starts the moment you open the door. They know that feeling valued and pampered is a feeling that none of us outgrow.

A trip to our salon is an opportunity for pampering, conversation and social time with friends. Our goal is for you to feel beautiful on the outside, and the inside!

Three different dining options!

Included in monthly fees, residents can choose meals for every different mood and occasion.

Bistro-style dining, coffee choices, and grab-and-go items.

Fine dining with a view, enjoy an upscale menu for your special evening or when entertaining guests.

Here residents can enjoy a spirited beverage, watch the game or enjoy a cards with friends. Adjacent to the community room, this venue is also an excellent option for hosting an event. The dining choices offer outside patio dining over the lower lake with umbrellas and comfortable chairs tempting one to lounge awhile and enjoy the geese along the water.

The Chapel & Community Room

Spiritual leaders on campus create programming that welcomes all denominations. Everyone is welcome to attend traditional Sunday morning service or enjoy daily inspirational broadcasts from our production area. Our chapel welcomes those of all faiths. The Chapel's historic stained glass window bridges Richfield Living's history to the future, having been lovingly re-purposed and painstakingly restored from the original Jane Morgan Harris Chapel. The community room is open for community engagement events, activities and meetings.
